Das *Gelinde* and das *Sanfte* affects the feelings, das *Leise*, the hearing. ***interessant'**, *adj.* interesting, important.

Syn. Interessant, anziehend, wichtig. That which is interesting does not excite in us the desire of possessing it, but merely that of enjoying or comprehending it. The *anziehend* attracts by the sensible pleasure it causes in us. An object appears *wichtig* to our minds from the important results connected with it. Happy is he to whom *wichtige* pursuits are interesting; the attention he devotes to them will render the pleasures of the senses less *anziehend*.

***Interesse'**, *n.* (-s; *pl.* -n) interest.

Syn. Interesse, *Z(h)ehlnahme*. Interesse in an object is that which excites in our minds the feeling we call *Z(h)ehlnahme*. We say, "das hat a great or not the least Interesse for me," instead of, "das erregt a great or not the least Interesse." We can, however, only say "das erregt," but never "das hat, great *Z(h)ehlnahme*."

Syn. *irre*, unsinnig, sinnlos, verrückt, wahnsinnig, wahnsüchtig. *Irre* is used of one whose ideas, during a state of illness, are the voice of an inward connection among themselves. *Unsinntig* and *sinnlos* indicate a deprivation of the use of the understanding and senses, occasioned by any violent passion; in the *Unsinntigen*, however, this privation begins with the understanding, whence it spreads its baneful effects over the senses; with the *Sinnlosen* it at once stuns the senses, and thereby arrests the functions of the understanding. — *Unsinntigkeit*, *Verrücktheit*, *Wahnsinn*, and *Wahnsucht* differ from each other by their duration. *Der Unsinntige* finds himself in a transitory state, which vanishes with its short-lived cause, whereas the condition of the *Wahnsinnigen* and *Wahnsüchtigen* is permanent. *Der Verrückte* is distinguished from both the latter in this, that he lives in a continual waking dream. *Wahnsinn* implies the entire bereavement of the use of the understanding, when a man takes that to be really true which he merely imagines. *Wahnsucht* manifests itself by a profusion of ideas; but as they are unconnected and confused, they are often absurd. The *Wahnsüchtige* is talkative, his ideas are extremely mutable; the *Wahnsinnige* will often continue quiet and apparently void of thought.

Syn. **Kalbaunen**, **Eingebeide**, **Gedärme**, **Getröße**. **Kalbaunen** (related to the Greek *χολός*) is used only of slaughtered animals and in culinary language; **Eingebeide**, on the contrary, is said likewise of men. The Roman haruspices inspected the **Eingebeide**, not the **Kalbaunen**, of the beasts sacrificed. **Kalbaunen** is nearly related to **Gedärme**, for both signify the same parts of the animal body; the former, however, only in so far as they are prepared for food. Hence the **Gedärme** of fish and birds are not called **Kalbaunen**, but **Gedärme** or **Eingebeide**. In scientific language **Getröße** is distinguished from **Eingebeide** and **Gedärme** as signifying properly only the mesentery or fatty wrinkled skin in the middle of the **Gedärme**; whereas **Eingebeide** signifies all the inner parts of the animal body, and **Gedärme** the canals containing the **Getröße**.

Syn. kalt, froßtig, Kälte, froßt. Kälte is the absence of heat in any degree; froßt only in a higher degree. We call a body kalt when it has a less degree of warmth than our own body. froßt, however, is that degree of Kälte which freezes water. Kälte, therefore, begins to be froßt at 32° Fahrenheit. If we judge of Kälte merely from sensation, we call it froßt when it causes contraction of the skin, shivering, etc.; *vid.* jästereiß. Figuratively we call any one kalt who is deficient in warmth of sentiment. froßt is that which excites no perceptibly agreeable feeling in others. A taller man must necessarily be a froßtiger poet; for he who is himself void of sentiment can excite none by his language in others; *vid.* talftinnig.

Syn. I. **Kraft**, *Bermögen*, *Stärke*. **Kraft** actually produces the effect; *Bermögen* is capable of producing it. **Kraft** is active and operative, *Bermögen* can become so. *Stärke* is a determinate and more especially a higher degree of **Kraft**. *Stärke* is the opposite to *schwäche* or weak. *Stärke* to *schwächelt*. A child even has a certain **Kraft**, otherwise it could do nothing; but it has as yet no *Stärke*.

Syn. II. **traftlos**, *untraftig*, *schwach*. A thing is **traftig** when it fails to produce an effect, whatever may be the cause of the inefficiency; **traftlos** and *schwach*, when the cause is want of force (**Kraft**). **traftlos** and *schwach* are used as well with reference to living as to inanimate objects; *untraftig* is said only of the latter. A thing may be **traftig** for any one and yet not be **traftlos**. The **traftvollste** speech will be **traftlos** for one who does not attentively listen to it. The opposite to *schwach* is *stark*, as having a higher degree of force. The *schwache* has no great degree of strength, but the *stärkste* has none at all. Any whole is called *schwach* from the fewness of its parts, and *stark* from their multiplicity. The whole may, therefore, be *schwach*, though each single part is *stark*. The army when composed of but few men is *schwach*, **traftlos** when exhausted by long marches and fatigue.

Syn. La'che, See (der), Pfuhl, Pfütze, Sumpf, Teich, Weiher. A See is not only the largest inland standing water, but it may also have an outlet, and consequently be connected with rivers. Its water is, moreover, pure and is, for the most part, inhabited by different kinds of fish. A Pfuhl is smaller than a See, and has no outlet; it is sometimes limpid, at other times turbid, and may or may not contain fish. A Pfütze is a smaller Pfuhl, which may disappear as easily as it is formed. A Sumpf is distinguished from the two last in having its waters over a soft soil which gives way under the feet. He who is not sure of his way in traversing a wood may easily stick fast in Sumpfen. In some boggy districts the Sumpfe do not dry up even in summer. La'che is peculiar to Upper Germany; its signification is the same as Pfuhl in Lower Germany. Teich and Weiher are distinguished from the rest as being artificial and destined as reservoirs for fish. Both, however, and especially the former, are often without fish and only serve as an embellishment to pleasure-grounds.

la'cherlich, *I. adj.* 1. inclined to laugh; 2. laughable, ridiculous; *II. adv.* ridiculously; mir, ihm ist — (*zu* Mut(h)e), I feel, he feels, as if I, he should laugh.
Syn. lächerlich, belachenswürdig, tomsich, pos(e)it(e)lich, burlesk. The Belachenswürdig(e) deserves to be laughed at, even if it should not always excite laughter. The lächerliche is, properly, what really provokes laughter; it is, however, often confounded with belachenswürdig(e). The really Belachenswürdig(e) should be the only source of the lächerliche, but poets by humorous combinations and associations can often make things lächerlich which are not at all belachenswürdig(e). The tomsich is the lächerliche in action. Everything tomsich is therefore lächerlich, but everything lächerlich is not tomsich.

The Poss(e)itliche (droll) is more especially the lächerliche in gesture. The monkey on account of his lächerliche motions is a poss(e)itliche Z(h)ier (droll animal). Children, also, are poss(e)itlich, when in their games they imitate the serious manner of older persons. The Burleske consists in a lächerliche representation of what is great and important. There is, however, a twofold sort of the Burlesken; *vid.* Parodie, travestien.

Syn. I. leer, ledig. **leer** is what contains nothing; **lebig** implies that a thing has contained or would contain something, but does not. A bottle is **leer**, because nothing is in it; it is **lebig** inasmuch as it can be filled. **leer**, however, is used in both these senses. A place is **lebig** when no one possesses it who may hinder another from taking it. In speaking of incorporeal objects we can only use **leer**, and not **lebig**. An ignorant man is called a **leerer Kopf**, and not a **leibiger Kopf**. So we also say **leere** promises or words, and not **leibige**. An unmarried person is called **lebig**, because no connection exists which hinders him from contracting marriage. In like manner any post that is vacant is called **erlebigt**, a place or service **lebig**. We say the throne is **erlebigt**.

Syn. II. leer, wüste, öde. A place is **leer** from want of objects, **wüste**, in as far as it cannot, on that account, be inhabited by man, and **öde**, when we find in it nothing that is useful or agreeable to him, more especially the absence of other human beings. Bottles, dishes, pockets, boxes, etc., are **leer** when there is nothing more in them; a country lies **wüste** when it is uninhabitable; the cell of a nun is neither **leer** nor **wüste**, but its inmate may find it **öde** when she seeks in vain for what alone could satisfy the yearnings of her heart.

leer, *m. (-es)* vacuum, void.

Syn. I. leichtfertig, lose, mut(h)willig, ver-büßigt. Those are leichtfertig who do not consider whether their pranks are hurtful to others or not. Lose are those who somewhat outstep the proper bounds, or do things in joke or from malicious pleasure which they, at least, do not think wrong or hurtful. We say a leichtfertiger boy, and the same also of a girl. Those are mut(h)willig who intend some injury by their freaks. Leichtfertig is, therefore, a lesser fault than mut(h)willig, although in common parlance the latter is often used for the former and without any bad accessory idea. Great reproach is implied when we call a female leichtfertig; this, however, may originate merely from leichtfinn. Ver-büßigt is an epithet of still greater reproach.

Syn. II. leichtsinnig, flatterbaft. Leichtsinnig indicates the inability to receive sufficiently strong impressions from objects with respect to their causes; flatterbaft with regard to their effects. A leichtsinniger man stakes what is of most importance to him, and forgets directly the greatest losses, because, from want of attention, the most important things make no impression on him. An effect of this disposition is flatterbaftigkeit, or the rapidity with which a man hurries from one object of his choice to another.

Zufall implies an event the course of which we do not know; Ungefähr that to which we ascribe the origin of an event. A Zufall arises from Ungefähr, and Ungefähr leads to many Zufällen.
